THESE DOCKS are conveniently situated in Yokohama harbour and the attention of Captains and Engineers is respectfully called to the advantages offered for Docking and repairing Vessels and Machinery of every description.

The plant and tools are of recent patterns for dealing quickly and cheaply with work, and a large stock of material is always at hand, (plates and angles all being tested by Lloyd's surveyors).

Two powerful Twin Screw Towboats are available for taking Vessels in or out of Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable of lifting 35 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that of any port in the world.

ROYAL AERATED WATERS
MANUFACTORY.

PRODUCE the highest Class AERATED WATERS in the Far East on account of their High Class Machinery and also of the superior ingredients they use in the manufacture of their goods, and the cleanliness, &c., are all under strict supervision of Europeans only.

REPORT OF AN EXPERT.

The representative of Messrs. BRATBY and HINCHLIFFE, LIMITED, Aerated Water Engineers and Chemists, Manchester, visited our factory recently in the course of a tour amongst Eastern Aerated Water Makers, and was greatly surprised at the compactness of our factory and also the methodical way in which everything pertaining to the making of Aerated Water was carried out. He also expressed himself strongly on the absolute cleanliness of our whole establishment, which he assured us was equal to any he had yet visited, and superior to a great many. He also reported that the quality of our goods was of a first class nature, and they showed that scrupulous care was exercised in the course of their manufacture.

ILLEGAL SQUATTING.

In our issue of Saturday we published a report of a case in which a man was prosecuted for illegal possession of opium at Shaikwan, and we pointed out the great difficulty the excise officers had experienced in arresting the culprits. Several cases of a similar character were dealt with this morning and heavy penalties were again inflicted. From the investigations of the various excise officers it has been discovered that many of these illegal possessors and sellers of opium go to Shaikwan and Lyemum, and there "squat" without any permission whatever from the Land Office. They erect matchboxes and carry on the illicit business of opium divans, and sellers of opium. But apart from this they cultivate the land for produce, keep pigs and poultry, and find a ready sale in the local markets. So well are their operations carried out that, when the Land Bailiffs visit the premises to collect rents, inspect licences, and so forth, the matchboxes present all the appearance of squalid, poverty-stricken shelters for the poorest classes, the pigs and poultry being carefully concealed. These people have been looked upon as poor, homeless, destitute creatures and left alone by the land bailiffs, as being apparently unable to pay any land tax. But in some instances, where pigs have been found, and the ability of the owners of the matchboxes to pay tax, for the land they occupy, has thus been demonstrated, upon the refusal of the tenants to pay such tax the matchboxes have been burnt to the ground by the authorities, only to be found rebuilt, by the same people, on their next visit to the district. So well do they bring the business to a point that they can recognize the approach of, and discriminate between, the excise officers and the land bailiffs. Thus it has been discovered that, upon seeing the former approaching, which they can easily do from their elevations on the hill-sides, they hide, or throw away, only their opium, so that on going up to the matchboxes the officers find the tenants in possession of, in some instances, as many as fifteen pigs, each valued at \$25, besides considerable quantities of poultry. Several acres of land near-by are well-cultivated, and enable the squatters to derive a monetary return. On the approach of the land officials, however, all this live-stock is driven away. Out of several cases before the Court it is not necessary to select more than two of those disposed of to-day as bearing out these facts. The excise officers made their appearance on the slopes at Shaikwan on Saturday, when, as usual, the cry of "Police coming" was passed from shed to shed on the hills, and several men were observed running, and afterwards found to have been carrying tins containing opium, both prepared and dross. Thus, when the sheds were raided under warrant, no more opium was found than sufficient to secure fines of \$5 each. But in this connection it was observed that a member of the squatters who was "too poor and destitute to pay any land rent," was in possession of considerable quantities of swine and poultry, from which he must have derived not only a comfortable living, but a good return. By these methods the Government is being defrauded of a by no means trifling amount of revenue not only from the land, but also from the continuous and increasing business in the illegal possession and sale of opium. It appears to be a matter well-worth the attention of the authorities, and it is to be hoped that a stop may soon be put to such a state of affairs.

At the Supreme Court, this morning, before His Honour, Judge T. Sercombe Smith, a Chinese named Kwok Shui Ting, sued the Yuen Ling firm of Hongkong for the recovery of a sum of \$5,150 being money due on a promissory note for \$50,000, dated March 11th 1904, and \$30,000 money lent on May 9th of the same year. Plaintiff furthermore claimed interest until payment or judgment. Mr. O. D. Thomas appeared for the plaintiff, who obtained judgment with costs.

Inspector Williamson this morning charged the master of a junk before Mr. Kemp, for sailing in the waters of the harbour on Saturday night without exhibiting any lights, as required by the Harbour Ordinance. The Inspector pleaded for severe measures against the culprit, pointing out the great danger to navigation to be allowed to move about the harbour without lights with impunity, and in defiance of the harbour rules. His Worship severely reprimanded the man, but as it was his first offence he fined him \$7 or 14 days.

THE cruise of the *Glória* in verse, together with songs, poems and dialogues, is a large collection of matter of varied interest, most of which would have been all the better for a free use of the blue pencil before publication. The author does not reveal his identity and apologises for trespassing upon the reading public by expressing the hope that they may help to pass away a dull hour. Had they been written with a care they would, in all probability, have served their purpose, but as they stand at present they can be commended to no one. Should the more venturesome pry into the pages they can make a start with the dialogues, which may induce them to try the verse. Messrs. Kelly and Walsh have produced a well-printed volume, which should assist the author in getting his work before the public.

WILLIAM McCormick, an unemployed seaman, who was remanded to the House of Detention as being a vagrant, and without any visible means of subsistence, and who disappeared from the House some time ago, was found lying drunk and incapable in the gutter outside the Fire Brigade Station in Queen's Road Central, last night. He was removed to the Central Station, and this morning Inspector Gourlay placed him before Mr. Kemp on the two charges of failing to return to the House of Detention, and of being drunk and incapable on the public street. Defendant said he had been seek in the Government Civil Hospital for some time and that was why he had not returned to the House, but it was proved that he was discharged from the Hospital three weeks ago. He was sentenced to one month's hard labour for "failing to return," and fined \$2 or a further 7 days for being drunk and incapable.

MR. J. Sibbit, head tank-keeper at the Hongkong and Whampoa Dock Company, at Kowloon, charged his house-boy with the theft of \$5 from the pocket of a pair of trousers. It appears Mr. Sibbit had put a \$10 and a \$5 note, wrapped together, in his pocket, and threw his trousers on a chair, while he went and sat in the verandah for a while. On returning after a few minutes, he got dressed and then proceeded to gather his goods and chattels from the pocket he had just discarded. In doing so he discovered that the \$5 note, had disappeared. He called the boy and told him of the loss, when the latter said, "it must be that confound the very tricky man." Mr. Sibbit told them to find the confound, "chop, chop," and followed his boy into the kitchen, when he noticed the latter looked very scared, and suddenly rubbed his knees with both hands. But he was too late; a \$5 note slipped out of the loose leg of his trousers, which was identified by Mr. Sibbit. Mr. Kemp sentenced the boy, who was only fifteen years of age, to 48 hours' detention, and to receive 20 strokes with the birch.

A MILITARY expert in a conversation attached much importance to the recent casualty list from before Port Arthur. We have all been learning, he said, that the Japanese private is a "first-class fighting man," but the official figures of the fights to gain some of the forts speak volumes to the military observer. In one battle recently the Japanese commander reported 2,600 casualties, in the ranks and 63 officers. Roughly, that is one officer for every 42 men put out of action. Translated by the expert, these figures prove that troops have never taken the field who needed less leading than the brave little sons of Dai Nippon. In the Franco-Prussian War, which is always taken as the standard of measurement, what were the figures on the German side in some of the bloodiest encounters? At the battle of Worth, one officer was killed to every 27 men. At Colonoberg one to 22; at Spicheren one to 24, and at Gravelotte one to 22. The Germans in 1870 were allowed by all experts to be far ahead of their opponents in soldierly discipline and capacity; yet these wonderful figures in the terrible hand-to-hand struggles before Port Arthur have in the face of improved arms of precision practically doubled the figures which were thought so high a testimony to German "morale."

Of the week ended 8th inst., three cases of enteric fever were notified, two of which, Japanese, were imported from Canton.

THE Pollard Lilliputians are due here in a few days, and reference to our advertisement columns will show what a treat we have in store for us. Booking for the first week's entertainment is to be opened at Robinson's Piano at 10 a.m. to-morrow.

CAPT. IN Jones of the s.s. *Hongkong* is confined to his bed with fever, at his house in Macao. In the mean time, Mr. John Boardman, the erstwhile Chief Officer, has control of the bridge. Mr. Conhill, who was for some time in the Douglas Steamship Company, is acting Chief Officer of the vessel.

THE "SHELL" TRANSPORT & TRADING CO. LTD.

Following is the directors' report submitted to the shareholders at a meeting held on the 21st of September, 1904.

In accordance with the undertaking contained in the last report approved at the meeting of 22nd December, 1903, your Directors had hoped to place before you the adjustment of the accounts as compared with the estimated figures for the year 1903, but in view of your auditors requiring to have before them the accounts for the year ending the 31st of December, 1903, before they certify final figures, your directors regret that it is not yet possible to do so. They are, however, able to state that apparently the adjustment entails the alteration of the profits for the year from £219,566 13s. 9d. to £228,644 4s. 4d. a difference of £9,077 11s. 8d. Your directors take the earliest opportunity of meeting you, after ascertaining the last-mentioned figure, but it is impossible for them to at the same time submit accounts for the year 1903, and you will be asked to pass a resolution adjourning the meeting in order that the profit and loss account and balance sheet may be made up in certain respects on the lines indicated below, so soon as the accounts are received from the Asiatic Petroleum Co., Ltd., for the first and second halves of the year 1903, the accounts of your company depending on them.

The interest due to you from the Nederlandsche Indische Industrie en Handel Maatschappij, for which credit was previously taken, will be treated as revenue for 1903.

Very important developments have taken place in the position of the company, in so far as their participation in the European business is concerned. The cost of shares in the Petroleum Products Actien-Gesellschaft, shown in the last balance sheet at £28,500, has been increased to about £16,250, representing one-third of the present paid-up capital of the company, which has been raised to 9,000,000 marks (the remaining two-thirds having been subscribed equally by the Deutsche Bank and the Steara Romana Actien-Gesellschaft für Petroleum-Industrie). A strong distributing company has thus been established, which has acquired the whole of the installations for kerosene, benzene, etc., constructed by your Company in Europe. Agreements have been entered into with sundry producers, securing the consignment of supplies for sale by the Petroleum Products Actien-Gesellschaft.

A contract has also been entered into by which ocean transport is secured to your company.

In view of the organisation by both American and Russian producers, your directors decided that it was in the best interests of this company to ally themselves with producers, and it being obvious that prices ruling for kerosene are not based on cost of production, but on reasons of policy, in thus acting as distributors on producers' account, risk attending merchants' business are minimised.

It is with much pleasure that your directors are able to announce that the position and prospects of the Nederlandsche Indische Industrie en Handel Maatschappij have very materially improved. The production of crude oil from the Borneo fields during 1903 was 153,486 tons as compared with 122,600 tons during 1902. The production for 1904 to the 27th of August has been 186,359 tons, made up of approximately 53,000 tons during the first three months and about 133,000 tons during the following (about) five months. The increase is notwithstanding that during the latter period owing to the impossibility of storing the oil, wells of great capacity have had to be shut down, and in spite of having exported 10,650 tons of crude oil, the accumulated stock on the 27th of August was still over 30,000 tons. Active and energetic steps have been taken to practically double the refinery capacity, which is only capable at present, under extreme pressure, of treating 6,000 tons of crude oil per week, and when the extensions are completed there appears to your directors little doubt but that ample crude oil will be obtainable to give the refinery full employment.

A steamer of light draft to carry 7,500 tons is now in course of construction, and due for delivery during the year. This steamer will be utilised to supplement the present local transport facilities, so that they may about equal the capacity of the refinery when completed.

The Nederlandsche Indische Industrie en Handel Maatschappij has decided, with your directors' approval, that the working period of the concessions commenced on the 1st January, 1904, and that a re-valuation should take place of the company's assets as on the 31st December, 1903. This re-valuation has been made, and all interest up to that date has been added to the cost of the various portions of the works. As a partial set-off, the proceeds of the oil disposed of during the construction period has been treated in reduction of the total capital expenditure.

The re-valuation has been of the company's local actual assets (other than the value of the rights on the territories), and all disbursements up to date, including clearing the jungle, exploration, development, etc., over and above the valuation, have been passed to the debit of concessions' account.

The local books have been audited by Mr. G. Dierckx, a fully qualified and well-known accountant of Singapore.

With the object of more conveniently defining the financial relations between the two companies, it has been decided to place the indebtedness of the Nederlandsche Indische Industrie en Handel Maatschappij to your company in the form of bonds, bearing interest at 5 per cent. per annum, repayable from time to time by the Nederlandsche Indische Industrie en Handel Maatschappij, as its funds permit. In addition a scheme of amortisation, which is thought to be more in accordance with the conditions, has been adopted, and the agreement with your company temporarily suspended. The company's interest in the ordinary shares of the Nederlandsche Indische Industrie en Handel Maatschappij remains.

The directors retiring by rotation are Mr. Henderson, Mr. Jardine, and Mr. Nunge, all of whom, being eligible, offer themselves for re-election.

(Signed by order of the board),
E. C. SMITH-KAWES,
Secretary.

THE HONGKONG GYMKHANA CLUB.

The fourth meeting of the Hongkong Gymkhana Club, which, after a necessitous postponement from the previous week, took place on Saturday, was a success from every point of view. The ancient valley was seen at its best. Football and cricket enthusiasts were opening what promises to be one of the most successful seasons in the annals of Hongkong athletics, and the merry "gee-gee," and, at one time any how, the most humble of humble mokes traversing the now beautiful course, completed a picture of youth and enthusiasm, which must give us, old men, pause. There was a remarkably large attendance, greater in fact than at the previous meeting, and all enjoyed the sport provided by the Committee, assisted as they were by the energetic Hon. Sec. (Mr. G. K. Hall Brutton). H.E. the Governor, Major Sir Matthew Nathan, R.E., K.C.M.G., arrived before the first saddling bell, and was, as usual, received on all hands with the greatest cordiality. The officials were:—Committee, the Stewards of the Hongkong Jockey Club, (Ex-Officio). Messrs. P. Alderton, T. F. Hough, J. F. Knox, R.N., Cap. Nugent R.A., and Mr. G. H. Potts. Mr. J. A. Jupp, was Clerk of the Scales, Mr. H. P. White, Judge; Mr. G. H. Potts, Starter; Mr. W. W. G. Ross, and Starter; and Mr. G. H. Brutton, Hon. Sec. and Treasurer. By kind permission of Lieut. Col. C. N. Watts and the officers of the 1st Battalion Sherwood Foresters, the band of the regiment played the following selections:—"March," "King Cotton," Sousa's overture, "La Reine d'un Jour," Adam's selection, "Dorothy's Cellar," walse, "Angelo Mio," Pecorini's selection, "A Runaway Girl," Caryl's, "Grossmutterchen," Langer's walse, "Premier Printemps," Margis, regimental march, "The Young May Moon." Six events were coloured on the card, the most important of which was the Club's Challenge Cup, *Ca Canny*, so popular in Hongkong racing circles, easily carried off the prize, thus securing for Mr. Johnstone absolute possession of the trophy. The Distance Handicap provided some good sport, but even the Hon. W. J. Gresson, good horseman as he is could not make the "donkey go." Generally speaking, the sport was of the best, though in the Ladies' Nomination Race, no rider came through the screen. The race was awarded to Mr. Paterson, although Mr. Johnstone was first over the course, but was thrown on approaching the screen, his mount positively refusing to encounter the peculiar form of opposition. We append details of the various races:—

"Sanitas"

IN AN
Unequalled
Purifying Agent

AND IS
Indispensable in Hot Countries.

"Sanitas" Disinfecting Fluid
is non-poisonous and non-staining, and for
general or personal use is thoroughly effective.
It completely disinfects the house in which
it is used, and administered internally prevents
Cholera, Typhoid Fever, Dysentery, etc.

"Sanitas" Disinfecting Powder
is the best air purifier known, and a stronger
antiseptic and deodorant than carbolic acid,
besides being pleasant and refreshing.

"Sanitas" Eucalyptus Soap
is specially recommended by the medical
faculty for use in hot climates, because of its
fine disinfecting qualities and its fragrance.

Kingzett's Fumigating Candles
employ the safest and most convenient means
of sulphur fumigation. For the disinfection
of infected places, bedding, clothing, etc.,
they are both effective and economical.
Destroy all insects.

ARQUEBUSADE WATER

OF THE

HERMITAGE OF THE MARIST BROTHERS;
OR IMPROVED VULNERARY LIQUOR.

Invigorating, Stimulating, Hygienic, Aromatic, of an acknowledged and quite exceptional efficacy.

The Arquebusade Water, known and appreciated throughout the greater part of France and abroad, justifies more and more the great fame it has acquired.

USE OF THE ARQUEBUSADE WATER.

INTERNALLY.—From two to three spoonfuls in a glass of cold water, pure or sweetened, after falls, bruises, cuts, fractures, luxation, tearing of tissues, faintings, burnings, swoons, plague and cholera. For the last two cases it must be taken pure, six spoonfuls at a time. Experience justifies its efficacy as a preventive remedy against mortification and quinsy. The dose may be repeated several times a day.

The same dose, in a glass of hot and sugared water, instantly removes the fatigue of either a journey or a walk, is a great appetizer and often prevents colds.

Taken in an infusion of melissa, hyssop, ground-ivy, or violets, it is an efficacious remedy against gripes, difficult digestion, pains in the stomach, &c.

Taken pure after meals it is salutary to old people by warming their stomach, rendered cold by age, and accelerates digestion; but it is less suited to nervous persons and children to whom it must never be given without being well diluted with water.

EXTERNALLY.—It is a capital remedy against sprains, cuts, bruises, excoriation, burnings, fractures, any fresh wound, danger of mortification, heating of the feet, irritation of the skin after a walk.

Whenever it is possible rub hard with this liquid. A compress is saturated with it and applied on the affected part which is kept moistened by sprinkling it with this Water.

In case of wounds, after the dressing made with the Arquebusade Water, sprinkle the compress with a mixture of the Liquor and fresh water in equal parts.

It is also very advantageously used in frictions and in compresses used in headache, rheumatic and neuralgic complaints. For these last it is good to warm somewhat the liquid before being applied.

The ARQUEBUSADE WATER is of public interest, approved and recommended by the most eminent physicians of France, commends itself to all those who are anxious about their health in these countries where plague and cholera make often dreadful havoc.
